### Generations Past Youth In East

A generation is "all of the people born and living at about the same time, regarded collectively." [citation needed] It can also be described as, "the average period, generally considered to be about 20–30 years, during which children are born and grow up, become adults, and begin to have children." [citation needed] In kinship terminology, it is a structural term designating the parent ...

### Generation - Wikipedia

But at the same time, all generations – younger and older alike – have become more likely to support same-sex marriage over the past decade, suggesting a period effect separate from age or cohort. Another example of how generational analysis can aid in understanding public opinion is the case of attitudes about marijuana.
