Dog Reproduction (The Heat Cycle) Signs of Heat. The first sign of a female (dam) coming "into season" is often swelling of the vulva. This swelling can occur a week before bleeding, or the day before. Other signs of heat are behavioral changes; your dam may start to hump other dams, or pups or even your leg. She may also begin to lick herself ...

The bush dog (*Speothos venaticus*) is a canine found in Central and South America. In spite of its extensive range, it is very rare in most areas except in Suriname, Guyana and Peru; it was first identified by Peter Wilhelm Lund from fossils in Brazilian caves and was believed to be extinct. The bush dog is the only living species in the genus *Speothos*, and genetic evidence suggests that its ...
