Hi All, Does anyone know how to discover or reset the master/installer code for a Solution 16 Alarm? The factory default and the code written into the manual by the original installer don't work. I suspect that it was changed by a techie that did some work on the system a few years ago - no chance of getting hold of him again! Any ideas would be welcome - don't really want to pay for a callout ...

Post your queries and I'll see if I can help if its a one off simple query, if not I'll point to the installation manual to learn the programming yourself. If you sure your alarm is a Solution 16 panel (that is not partitioned), most tasks are trivial to program PROVIDED your alarm is verified to go be in good working condition (hardware wise).
