The Cartoon Guide to Chemistry: The Cartoon Guide to ...

Gonick tries to cover a lot of ground in his cartoon guide to chemistry, but some of the content is a bit murky and oversimplified. I don't know if I'd recommend this book to a layperson, but someone who knows chemistry could certainly make recommendations on specific passages that explain tricky concepts well. flag Like · see review

The Cartoon Guide to Chemistry by Larry Gonick

Make no mistake, The Cartoon Guide To Chemistry gives you a full introductory (and then some) science textbook lesson in the danger, fun, and wonder of chemistry, but all without the aridly pedantic, tedious wording. There are a few moments where Gonick and Criddle get a little too cutesy with the humor, but the book is never overwhelmed by them.

[Book] Cartoon Guide To Chemistry

The Cartoon Guide to Genetics plays out like a storybook of history, outlining how we came to understand certain molecular biological concepts. All in all, it took me about two hours of nonstop reading, if that (I was engaged so much I didn't even notice the time), and I feel I received a bit of edification in the realm of genetics, especially ...
