Your Water Garden becomes a self-cleaning fish tank that also grows fresh food up top. The fish waste fertilizes the plants on top and the plants clean the water — so fewer water changes required. The Water Garden grows year around and comes with EVERYTHING you need to get started —no green thumb or big backyard needed. It has 3 gallon capacity.

This is a close-up of one group of blooms in our garden. Native to the Mediterranean region. Below: Candle Bush (Senna alata) known to my wife as the Acapulco. It's native to Mexico, perhaps brought by a Spanish friar, and grows VERY vigorously here as a weed. I have not seen it intentionally planted in a garden but it is beautiful.

Grows best from transplant and divisions. When to plant angelonia in Arizona: March - October Months in bloom: Nearly all year if frost free . Good to know: Angelonia is a tough plant that provides excellent color in the heat of low desert Arizona summers. Needs regular water; let established plants dry out a little between watering.

Arizona Annual Flowers: A Visual ... - Growing In The Garden

A Story about a Farmer - The next time Jesus taught beside Lake Galilee, a big crowd gathered. It was so large that he had to sit in a boat out on the lake, while the people stood on the shore. He used stories to teach them many things, and this is part of what he taught: Now listen! A farmer went out to scatter seed in a field. While the farmer was scattering the seed, some of it fell along ...
